

## **Judging Criteria that is considered:**

- 1. Architectural consideration of concrete**
- 2. Complexity of project**
- 3. Engineering design**
- 4. Diverse application of ready mixed concrete**
- 5. Scope of work for the project**
- 6. Difficulties of the project/uniqueness**
- 7. Finished quality of the project / finished appearance**
- 8. Best use of concrete**
- 9. Quality/durability**
- 10. Project design**
- 11. Concrete techniques**
- 12. Outstanding features of the project**
- 13. Pictures of the project**
